

## How to Add License Keys to XLerator 4.0

This document will go over how to add a license key to XLerator 4.0

When a new dongle is shipped to an agency, it is accompanied by a letter that includes the license keys are assigned to that specific dongle. To add the license kets to XLerator 4.0, ensure the dongle can be read by the server with XLConsole on it.

1) Open XLConsole and navigate to the 'License' tab.

Status	<b>Product</b>	Protocol	Language
	AED	STD	NAE
Connections	AQUA	ECN	ANZ
	AQUA	ECN	ARA
Aliases	AQUA	ECN	BZP
Heore	AQUA	ECN	EUG
Users	AQUA	ECN	EUI
Licenses	ACJA	ECN	FRE
	AU <mark>9A</mark>	ECN	GEO
Settings	AQUA	ECN	HKE
	AQUA	ECN	IDN
Share Settings	AQUA	ECN	LAS
About	AQUA	ECN	LIT
ADOUL	AQUA	ECN	MAL

2) Select 'Add', and copy the license key into the text field.

^

If the license has been added successfully they will appear in black.
